

112A Introduction to Computer and Computer Science

Homework Assignment #0

Due: 9/18 12:00:00

In this homework assignment, you will practice how to create and run a python script (.py file), and use the basic function “**print**” to show some text message. As you have learned all the related knowledge during the lectures (if, while, and for).

Problem #1: Create a .py file

Please create a python script (.py file) and use the basic function “**print**” to print your answer of the following questions:

1. Who are you?
2. Why are you here?
3. What do you expect to learn in this course?
4. What do you want to do in this campus?
5. Anything you would like to say.

Here is the sample code,

```
print("Homework 0")
print("="*60)

print("Question 1: Who are you?")
print("Ans:")
print("    Your answer...")
print("="*60)

print("Question 2: Why are you here?")
print("Ans:")
print("    Your answer...")
print("="*60)

print("Question 3: What do you expect to learn in this course?")
print("Ans:")
print("    Your answer...")
print("="*60)

print("Question 4: What do you want to do in this campus?")
print("Ans:")
```

```
print("    Your answer...")
print("="*60)

print("Question 5: Anything you would like to say.")
print("Ans:")
print("    Your answer...")
print("="*60)

print("End of this homework.")
```

Problem #2: Summarize your result

Please printscreen and summarize the results of every question in your report. For example,

```
(nycudopcs) 0:\                                \Homeworks\112A\HW0>python 112A_hw0_0123456789.py
Homework 0
=====
Question 1: Who are you?
Ans:
    Your answer...
=====
Question 2: Why are you here?
Ans:
    Your answer...
=====
Question 3: What do you expect to learn in this course?
Ans:
    Your answer...
=====
Question 4: What do you want to do in this campus?
Ans:
    Your answer...
=====
Question 5: Anything you would like to say.
Ans:
    Your answer...
=====
End of this homework.
```

Attention!

Your report should be a .pdf file.

Hand in procedure:

As we had mentioned in the lecture, you should list all your collaborators in your programs. Here is the template:

```
""  
Created on Sun Aug 7 01:23:45 2023  
  
@author: Xi Winnie, student ID  
  
@collaborators: Jane Doe, her student ID  
                 John Doe, his student ID  
""
```

Please save your homework as a “.zip,” “.7z,” or “.rar” file, where the file name should follow this format:

112A_hw0_ID.7z

For example,

112A_hw0_0123456789.7z

Please note. **We are not going to accept any homework file with wrong file name, wrong file format, or without signature.** Please double check the content of your file.

Once you have accomplished your works, you can submit your homework to the “E3@NYCU” system. There will be a section for uploading your homework.
